WHY DO I NEED A HEALTH CHECK?

Good health is the key to a happy and fruitful life; it is also the most neglected asset. Our lifestyle today is ridden with unnecessary stress, irregular working hours, poor eating habits, late night partying and inadequate rest. All these coupled with high pollution levels result in physical and psychological health problems.

We regard health as a personal responsibility and strive to empower you to take charge of your wellness. With today's pace, it is easy to overlook personal health until there is a medical crisis. Health problems can be managed more effectively if detected at an early stage.

We are delighted to offer you health check plans with comprehensive medical assessment and personalized preventive solutions to suit individuals and corporate. From simple routine health check up to high end health check-ups with sophisticated tests, all our health check programs are backed with the best medical equipment and expertise. We also offer the option of immediate treatment. Your evaluation is individualized according to your personal health needs and remains strictly confidential.

SOME GUIDELINES

- Prior appointment is essential to avoid inconvenience.
- The entire check up takes around 5-6 hours depends on the package selected.
- A minimum 12 hours fast is essential before a health check plan except some water intake.
- It is advised that you wear loose and comfortable clothing and no jewellery when coming for the check up.
- Kindly bring along the medical records of any illness in the past as well as any hearing, visual (spectacles) or other aids in use.
- Additional tests, investigations or consultation can be conducted on request or requirement but will be billed in addition to the price of the specific package.
- Pregnant Women must inform X-Ray Technician if pregnant / expecting pregnancy.
- Please do not submit urine sample / pap smear swab during menstruation.
- Male patients are requested to shave their chest to ensure a good ECG/TMT.
